TN COLLEGE REPUBLICAN FEDERATION DENOUNCES REP. KENT WILLIAMS College Republicans Call for the Removal of Williams from the Party

As a political organization of students, the Tennessee College Republican Federation endeavors to represent the interests of our state and our party. In the pursuit of the greater good for our state, we find it necessary to release a statement detailing the Federation's response to recent happenings in the Tennessee State Legislature.

Therefore, the Tennessee College Republican Federation declares the following:

1. The actions of Representative Kent Williams, a Republican representing Tennessee's 4th District, are contrary to the voice of the voters as spoken on November 4th, 2008. The election results showed a desire for change in the way Nashville was run.
2. Representative Kent Williams, having broken a signed agreement to support the Republican caucus' nominees for Speaker of the House and Speaker Pro Tempore of the House, should be removed from the Republican Party. The Tennessee College Republican Federation commits itself to endorsing candidates running against Kent Williams, further reiterating the Federation's belief that we cannot campaign or support Rep. Kent Williams.
3. The Tennessee College Republican Federation, in conjunction with the Republican Party and Republican legislative candidates, commits itself to preserving and expanding the Republican legislative majority in Nashville, to prevent Democratic maneuverings to halt the work of the people of Tennessee.
4. Representative Jason Mumpower, House Majority Leader, should press onward, doing the work that the people of Tennessee elected Republicans to do, committing himself to conservative values and conservative governance.
